### President Pierce's Position.

When President Preser assumed office, he voloutably assured the people of the United States that the slavery agitation should not be re-openrd, if he could prevent it; and he gave grand promises of halcyon days of peace to come for the county. When he delivered his first Message to Court-5. A nen ne centreren nis inst message to Congress—the present Congress, list December, he used the following language:

"The acquiescence of distinguished citizens, whose devotion to the Union can never be doubt-

whose devotion to the Union can never be doubted, has given renewed vigor to our institutions, and restored a sense of repose and security to the jubble mind throughout the confederation. That this repose is to suffer no shock during my official term, if I have somer to avoid it, those who placed not here may be assured."

Such was the promise held out to the country And now see how the promise has been kept!-This same President Pierce is exercising all of his personal influence, and the whole atrength of his administration, to compel the passage of a ball, which the country has not asked for, for which notedy has petitioned, against which the whole North stands arrayed, and the passage of which will most effectually disturb that "repose" which this model democratic President promises never to distorb. Nay! that repose is already broken, and the legions of Freedom and Slavery are already mustering among the hills and valleys all over the land, for the decisive conflict.

We have said heretofore that large use is being of Congress to do the bidding of the President. in proof of this, see what his official organ, the Washington Union mys. Attention! slaves of

#### More Rail Roads Wanted.

The Watertown Chronicle says that the near ospect of the completion of the Railroad from Milwaukee to that flourishing town has given everything a fresh start. "Business has greatly rerything in the shape of a dwelling house has presided, and numerous stiring speeches were ocreased, our city is crowded with new comers, become tenanted, buildings are being hurried up on every hand, capital begins to pour in upon us rom the east, and real estate has advanced withn the past year at least 50 per cent. But we want more helps of this kind-more railroads.blind to our own interests."

One of the roads which the Chronicle wants is he Central Wisconsin, leading from Geneva through Elkhorn, and to Portage City. The pledge of \$50,000 or \$75,000 of city aid, will, the Chronicle thinks, bring the road to that point, connecting there with the Mulwaukee, Watertown and Portage City Rail Road. Another road which the Chronicle desires to

see extended to Watertown is the Valley road, of which it says:

Cars now run regularly upon that road from Fond du Lac to Waupun, and from the latter named village to Juneau—14 miles north of us—the grading is all done and the cross-ties on the ground. That road will either seek a connection with the La Crosse road at Horicon, or the Milwaukee and Watertown road at this point. We n secure that connection. Shall we not?

WATERTOWN is going shead with giant strides inder the magic influence of Rail Roads. Its superior site, inexhaustible water-power, and fertile, productive and thickly settled vicinage have made it and must keep it, one of the largest and most prosperous of the interior towns of Wisconsin. Its ambition swells with its growth, and nothing less than four Rail Roads will now content it. "Go shead" WATERTOWN!

CIRCUIT COURT, Milwackes County, Greenleaf D. Norris, Tried, May 15, 1854, vs. Timothy O'Brien

Emmons & VanDyke, for Plffs. E. Foote, City Attorney for Deft. and the City of Milwaukee,

This was an action of Trover, brought by the plaintiff against the defendants for taking and selling a chain and anchor of Plifs. Defendants justify the taking said property by

virtue of a warrant issued by the Treasurer of the City of Milwaukee, against the said plaintiff, to collect a tax levied by the City of Milwaukee n 1852, against the plaintiff for the vessel Nemasks, owned by the plaintiff. The plaintiff proved the taking by O'Brien (then City Marshall) and the issuing of the warrant by the City Cressurer and the value of the property. The defendant proved the proceedings on the

part of the City, in levying the tax, and the preliminary proceedings, the issuing the warrant to the Treasurer, due notice to tax-payers to pay their taxes and the non-payment by plaintiff, and the issuing of the warrant to the Marshall (O'Brien) and sale of the property by virtue thereof.

The plaintiff's attorneys claimed that the pro ceedings of Assessors and Council were informal irregular and void.

The City Atty, claimed that the assessmen was regular, both in form and substance; but that if the court or jury thought otherwise, that so long as substantial justice had been done, the acts of the city and its officers should be sustained, and technical irregularities, or informalities would not invalidate the proceendings, and cited. Sec. 19 Chap. B, of the City Charter, which says : "All the directions hereby given for the assessing of lands and the levying and collection of taxes and assessments shall be deemed only directory and no error or informality in the proceedings of any of the Officers entrusted with the same, not affecting the substantial justice of the tax itself, shall thank of threats and promises to compel members vittate or in any way affect the validity of the tax

> The court fully sustained the partion assumed by the City Attorney.
>
> The case was submitted to the Jory who ren

dered a verdict of no cause of action.

Thus fully sustaining the proceedings of the City in levying and collecting the taxes of 1852.

# Remarks about "Fish Hooks."

Messra Editors :

Your critical correspondent, "Fish Hooks", in a late communication, said some very good things respecting the error of adding the letter S to the abbreviation Gear; but it is surprising that such an estate observer, and such a stickler for the most rigid propriety in the use of the King's English, should, in the same critique, perpetrate much more serious offence, in using the siternative word "or" in the place of the negative word "nor," as in the following instance: "The plural of Gentleman is Gentleman, and not Genlemans or Gentlemens." Did "Fish Hooks" intend merely to affirm that the plural of Gentleman is either not Gentlemans, or else not Gentlemens; or would be be understood that it is neither one nor the other? If the latter, he failed grammatically to express his meaning.

"Fish Hooke" must so arrange his bait as to cover the whole "Hook," or we will not bite. Yours very truly, PISCES.

Four O'Clock.—Ineffectual motions were made to go into Committee on the Private Calendar, and to proceed to the business on the Speaker's table. Nothing was done but taking the Yeas and Nays to kill time on trivial motions.

Mr. Wentworth (III.) raised a question, that Andrew Stuart's name is recorded in the negative, whereas that gentleman is absent, and will not be here till 9 or 10 to-night. This did not alter the result, but still the error onght to be corrected.

I now appeal to the House on both sides, to accept the roposition made yesterday morning to allow the debate to continue till Thursday next, and to postpone the special order—the Pacific Railroad bill—for one week. This will give an opperanity for full discussion and is fair to both sides.

Objection was made by Mr. Tweed and others.

Mr. Gullom—I have been acting firmly with those who have resisted what I, for one, regard as an attempt in some degree to stiff debate on this important question. I have been actuated by no factious feelings. Mr. Stephens—The gentleman says because there has not been full discussion he thus acts—I will not moot the question how long the discussion shall continue—perhape two months, or six—the House must be the judge. It has been so for the last ten years. We have had questions of peace and war decided with less debate than has been permitted on this question. WAR PREPARATIONS IN CUBA.—The Havana correspondent of the N.O. By this it would appear that the government cannot rely upon the Spanish white population for effectual support, or it may be mere presence to form a nucleus for a black army to convert Cuba into an African prossession, in case the government of Spain connot be maintained."

The Queen of Spain's amnesty to all political offenders who may be aboard, with permission to offendels who may be aboard, with permission to them to return to Cuba, are so many prepara-tions, according to the correspondent of Delta, for war. He estimates the forces at Havana at 18,-

"Rates of Advertising.—The following rates have been agreed upon by the three Daily journals in this city. As the rates are 25 per cent below the D-troit Chicago, or Rochester scale, we do not think that advertisers can complain. The expenses of a daily paper in this city have nearly doubled during the past six years, and in justice to those whom they employ these rates are increased to somewhat meet these enlarged expenses of the proprietors. A well conducted newspaper has become an institution of the first importance to the growth of the city. Milwaukee has liberally sustained the Press, and we do not besitate to say that her Press of this city has been the Pioneer in every improvement that has already rendered our young city so widely and honorably known."

The steamer Washington from Bremer, whence
she sailed on the 25th ult, arrived at quaranting
ther night.

The steamer visinington from Bremei, whence she sailed on the 25th ult, arrived at quarantins last night.

She brings 240 passengers and a full caage.—
She reports having fallen in with the ship Winchester, bound from Liverpool to Boston on the 24 inst, which had been wrecked in a terrible gale on the 17th of April. The wrock had five hundred persons abourd including the rew yand notwithstanding a heavy gale which was prevailing at the time, the Wasbington enceeded in taking them all safely on board, and in thirty minutes after the last passenger was taken off, the wreck sunk.

The Winchester belonged to Boston, and had a considerable cargo on board. She sailed from Liverpool on the 8th of April.

The Winchester had, it appears, 750 persons abourd, and those not taken off by the Washington, were rescued previously by three different vessels bound for Quebec.

News from the Eastern War -- By the Atlantic.

The evacuation of Wallachia by the Russians The evacuation of Wallachia by the Russians is complete, and was skillfully performed.
The retreat was covered by a succession of unimportant victories, yet harrassing attacks upon the Turkish lines. The retreat, of course, made necessary a change in the Turkish front, and made it no longer necessary to maintain at Kalefat 1500 men, and the immense force of artillery stationed there. By his change the enemy will be ready to concentrate his whole force, if necessary, to meet the enemy.

The right wing of the Russians will now probably rest on the river Aluta, and its head quarters at Bucharest, and the main interest of the campoign is now centered in the operations below Nikolus and between Rustchuk and Sillistria.

The important post of Sillstrin is closely invested, but a telegraphic dispatch, dated the 26th says that up to that date it had suffered no denu-

age.

Accounts from Bucharest, April 19th, says it had been hard pressed since the 14th, and would have fallen but for the determined valor of its defenders, who expressed themselves able to hold out till aid should arrive. The Russians, on the contrary, expect to reduce it in a few days. Mustapha Pacha has a strong garrison, but is said to be neither well supplied with victuals nor amountition. The ford is in the possession of the Russians, as are also the intrenchments at the junction of the Driessara—the Turks having retired within their defences. The Russians were expected to assault on the let of May with 30,000 men.—They have erected 17 heavy batteries, under cover of which they will abvance to the attack,
